IT ALL STARTED WITH A TABLE MAT

Our journey started back in 2013 with the introduction of our first and eventually most famous and widely used design: the curve-shaped table mat. Since then our collection has expanded over the years. With a constant focus on responsible materials and aesthetics, our product range today has a wide variety of designs — for every room in the home, for restaurants and hotels, and for office spaces. What started with a table mat in recycled leather has turned into so much more.

DANISH DESIGN AND PRODUCTION

Our collection draws inspiration from the refined simplicity of Nordic aesthetics. The designs are creative, yet classic, and fit into most decors, creating a stylish, timeless base. Throughout both design and production phases, we maintain an unwavering dedication to the excellence of our products. This commitment extends to both their quality and aesthetics, and it is for this reason that both design and production are in Denmark. This localized approach empowers us to maintain a hands-on role throughout the production process, guaranteeing the continuity of our products and upholding our rigorous standards.

TABLE MAT CURVE L: FLINT GREY / NUPO

THE CURVE

The curve is unique to LIND DNA. The first time the organic shape was introduced, was in our curve-shaped table mats. The idea back then was to create an innovative, decorative, and functional design for the table mat with the perfect dimensions to place a plate, glass, and cutlery. The shape is timeless in design with a contemporary feel, and with its organic form it complements all types of tables, both round and rectangular, and everything in between. Today the curve shape is synonymous with LIND DNA, and now forms the shape of many of our designs.

CURVE & SQUARE

Curve and square table mats are our most popular choices, cherished for their timeless and classic appeal. The curve design allows you to embrace the organic shape that complements a variety of table forms, while the square design offers the opportunity to adorn elegant tables by playing with lines and angles. Both shapes are also available as glass mats, offering the versatility to either match with the table mats or experiment with mixing different forms. Both the curve and square table and glass mats come in an array of colours and textures, offering a wealth of possibilities.

TIMELESS DESIGN

To us timeless design is not simple. It is a symphony of shapes, materials, and aesthetics coming together in perfect balance. Natural materials, like leather, play a significant role in creating timeless designs. Its natural beauty and durability contribute to designs, that can withstand the test of time and remain relevant and aesthetically appealing year after year. By using recycled leather, we get all the benefits of the material while ensuring a responsible material choice for our future. To create designs we will cherish always.

TABLE MAT CURVE L: SOFT SKY / NUPO

CORE LEATHER

The recycled leather, we use in our designs, originates from vegetable-tanned core leather sourced from surplus production in the furniture and fashion industry — such as leftover pieces of leather from the production of a sofa or shoe soles. The fact that the leather used is vegetable-tanned means, that only plant-based liquids have been used in the tanning process, which is a more sustainable method, that also enables the recycling of the leather.

GRANULATE

The vegetable-tanned core leather is granulated into tiny pieces, transforming it from a solid piece of leather into crumbs that feel soft and lightweight to the touch. This granulate is mixed with natural rubber from trees in a ratio of 80% core leather to 20% natural rubber, and then pressed to create recycled leather.

RECYCLED LEATHER

From core leather to granulate to recycled leather. This process has been carefully developed to create a unique material offering remarkable versatility, easy maintenance, and a lifetime of durability. Also, a material that, during the process, grants us the opportunity to explore boundless design possibilities in terms of colours and textures. Both water-based colours and textures are developed with a focus on creating an organic, natural expression and colour interplay, that stays true to the natural material.

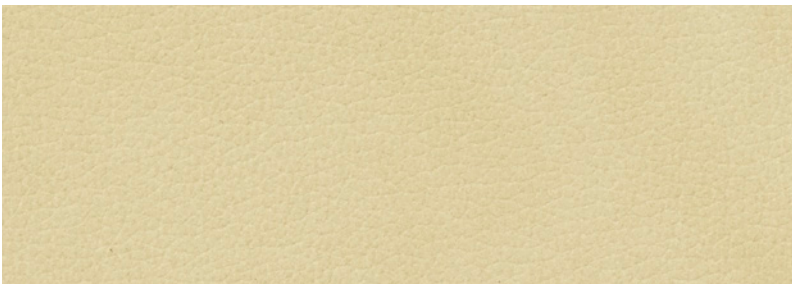

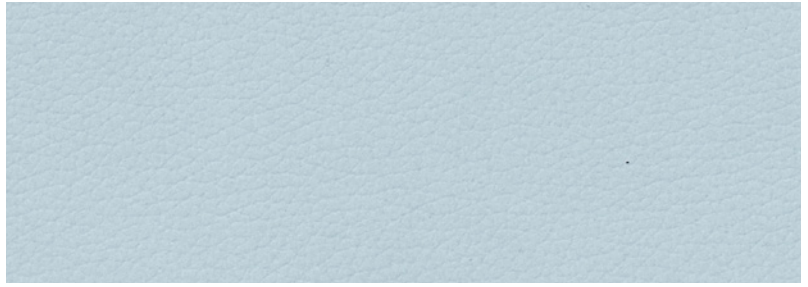

NEW COLOUR SS 2024

FRESH AND COLOURFUL

Our four new SS 2024 Nupo colours are a blend of colours and neutrals, all sharing the characteristic of a soft appearance on the gentle surface of the Nupo leather structure. The colours stand beautifully on their own and can be combined with each other or other hues in our colour palette, inviting the infusion of colours and freshness into the home for the season.

TABLE MATS AND GLASS MATS

Explore our extensive range of table mats and glass mats crafted in Denmark from recycled leather. Available in various sizes in the shapes Curve, Square and Circle, our collection offers versatility and style. Choose from eight leather variants, each featuring a unique colour selection. With our diverse options, you can effortlessly enhance your table setting to match your individual taste and aesthetic preferences.

NUPO COLLECTION

Nupo is our best-selling recycled leather texture, named for its distinctive nubbed surface. The matte finish has a Nordic and minimalistic expression with a subtle suede-like feel. It features a two-toned colour play, where two similar colours are seamlessly combined, creating a captivating interplay of hues. The embossing in this texture is simple and discreet.

COLOUR SELECTION NUPO

Nupo is our most popular recycled leather texture. It has a suede-like surface, with a soft, matte structure. Nupo has a Nordic, minimalistic look — the perfect choice for almost any interior style. The material is 1,6 mm thick.

SERENE COLLECTION

The latest recycled leather texture in our collection, Serene, is a modern take on a classic and highly authentic leather texture. It presents a look and feel reminiscent of the sophistication experienced from an exclusive bag. The authentic appeal extends to the colour selection in this texture, making it a reliable choice due to its timeless expression and easy maintenance. Being the softest recycled leather texture, it allows for easy rolling and convenient storage, even in a drawer, while the slightly polished surface makes it exceptionally easy to clean.

DOUBLE-SIDED COLLECTION

Our double-sided table mats offer a flexible solution for diversifying table decor, featuring different colours on each side of the mat. Turn the different sides up for an engaging mix of colours or use the hues individually for different table settings. This double-sided feature is unique to LIND DNA, as typical table mats have a designated front and back. Through the innovative development of recycled leather with dual colours, we have introduced an exceptional way to maximize the utility of the product.

TABLE MAT SQUARE M DOUBLE-SIDED: TRUFFLE / NUPO, OLD ROSE / NUPO

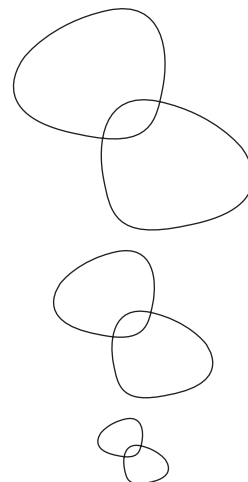

A sophisticated table setting featuring a dark wood table, a lit candle in a gold holder, a white ceramic plate with a chocolate dessert, a white ceramic cup, and a gold fork and knife. The background is a light-colored, textured wall.

BULL COLLECTION

Bull, our very first recycled leather texture developed 10 years ago, remains timeless with its natural colour selection and enduring leather finish — a classic choice both then and now. Bull is one of our most robust textures, enhancing durability and simplifying maintenance, which is why this recycled leather texture is used on many of our furniture pieces. The surface is adorned with a distinct yet subtle pattern and exudes a classic leathery appearance.

CORE COLLECTION

In the development of Core, our aim was to 'cut to the core' and create a recycled leather quality that can tell the story of its own production. With this intention, we have created our purest and most natural recycled leather quality. Without colour and embossed structure, the granulated core leather is easily visible in the material, and this charming detail ensures that each mat has a unique, natural flecked pattern across the surface.

The Silhouette collection comprises three types of candle holders and a matching vase. It features two tall candle holders of varying heights and a low candle holder, that mirrors the design of the base of the taller ones. CURVE CANDLE HOLDER

The Curve Candle Holders are handcrafted in Denmark from oak with a top of recycled leather in selected colours. The two parts of the candle holder are connected with hidden magnets. In the wood, a plastic insert has been placed to protect the candle holder when the candle is burning and ensure that the candle stands steadily.

Our Curve Candle Holders are available in two designs: for regular taper candles or tealights. The hidden magnet in the oak makes it possible to combine and place the candle holders in numerous different ways according to personal style and taste. Two, three or four Curve Candle Holders can be combined into one tealight candle decoration, or they can be placed separately.

TEAK TRAY

Like the rest of our collection, our teak trays in recycled teak boast a timeless design, yet they bring forth a multitude of possibilities. Perfect for serving, setting the table, and styling. The elegant designs of our teak trays from recycled teak seamlessly complement various contexts and with a wide range of leather inlays it can easily be matched to its surroundings or the table setting.

The collection features two elegant designs both adorned with meticulously crafted finger joints and produced according to the highest standards of craftsmanship. Teak Tray Airy presents a modern, yet lasting expression with open corners, while Teak Tray Even exudes the charm of classic, closed corners. In both designs the interplay of the small pieces of recycled teak will make the expression different from tray to tray.

RECYCLED LEATHER INLAY

The Teak Trays come with recycled leather inlays in 24 different colours. The leather inlays not only enhance the visual appeal of the tray but also offer the opportunity to create a cohesive style by selecting colours, that harmonize with the surroundings or match the table mats. The inlay can be removed, and the trays are surface treated, so whatever you might risk spilling does not seep through and leave marks.

RECYCLED TEAK

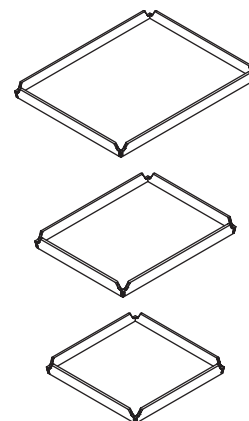

With a captivating passion for recycled materials, we have looked in further directions and expanded our range with products made from recycled teak. The small, thin pieces of teak wood used for our trays, are essentially waste products from the production of furniture, originating from mature trees harvested in renewed and certified plantations in Indonesia. We have invested in converting, what is essentially a waste product, into quality designs made to the highest standards.

TRAY SQUARE

Our simple and sleek Tray Square is characterized by its aluminum, which contrasts with the insert of recycled leather, giving the tray an edge. The tray serves numerous possibilities for both serving and decoration, and the fact that it comes with a removable double-sided recycled leather insert in 16 variants provides many options to find the one that best suits the home. The tray is produced in Denmark and is available in four different sizes.

SLIM TRAY

CURVE CHAMELEON TABLE

The Curve Chameleon Table is designed with a black, lightweight steel frame for an understated appearance. The legs have a graphic angle and add a distinctive character to the minimalistic design, making it striking from any perspective. The table comes with a Table Mat Curve L in recycled leather on top. However, as the name indicates, Curve Chameleon Table offers an extra functional dimension, as you can change the table mat with any other Table Mat Curve L.

CURVE CHAMELEON TABLE: BLACK-ANTHRACITE / HIPPO

CURVE LOUNGE TABLE: WARM GREY / BULL

CURVE LOUNGE TABLE

The Curve Lounge Table is based on the classic design of our curve-shaped tables, where the well-known curve shape invites an organic expression to your home. In the Curve Lounge Table two steel plates covered with recycled leather are connected by oak legs, and the inherent warmth of the wood adds a soft expression to the tables.

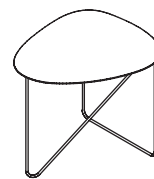

CURVE LOUNGE TABLE DOUBLE

The Curve Lounge Table Double is based on the design of the Curve Lounge Table but adds a third steel plate covered with recycled leather, providing an additional shelf for extra storage and styling options. The various sizes and heights enable multiple tables to blend in formations, suitable for any living room, lounge setting, or lobby area.
