

StableTable® OnTop™ Compact Laminates (HPL)

StableTable® OnTop™ compact laminate is a complete range of high quality table tops. They are weather and UV-proof and suited for both in- and outdoor use, and 12mm thick for extra strength under high wear usage. Available in a range of standard sizes and colours to fit most venues.

NaturalFeel™ is our own unique range of compact laminate tops with textured surfaces that make the table top feel like the “real” material. All our tops in the NaturalFeel™ range are laminated with the same material on both upper and under side and have colour matched cores for an even more exclusive feeling.

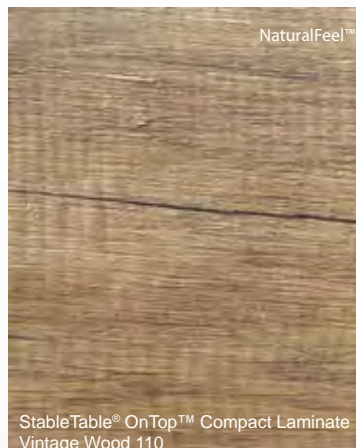

Produced to withstand most they all come fitted with double threaded inserts to ensure they stay in place.
